

## Message from Harker Heights Senior Program Manager

Hello All,

Harker Heights' Staff have exciting news and updates for our Harker Heights Senior Recreation Program. The Activities Center and Senior Recreation Program will be returning under the leadership of the Parks & Recreation Department. I have accepted a new position within Parks & Rec as the Rec Center & Senior Program Manager. This will allow me to have the opportunity to focus more time and resource on the Senior program. I will be the direct point of contact for the Senior program. If you wish to reach out to me, my contact information is on the top.

How will these changes impact the Senior Recreation Program? Starting on Monday, November 8, 2021 all the classes for Senior Recreation Program will move to the Recreation Center at 307 Miller's Crossing. Classes will remain at the Activities Center for the month of October and the beginning of November. The current schedule has not changed at this time when it moves to the Recreation Center. Any COVID-19 policies for Senior Programs that are in place currently will remain for the time being.

The Recreation Center has three multipurpose rooms and a gym in which we can program classes based on availability. With the Senior Program at the Recreation Center, we have the opportunity to work hand and hand with the Athletics Coordinators and Rec Staff to offer additional programs and events through out the day and possible evening/weekends. We are currently looking into active programming for the Active Seniors. There will be limited times in which we would have to move or cancel a class. The Activities Center is in great need for meeting room use for City Departments since COVID and is returning to the use of rentals for businesses and organizations. Also with Senior Rec program at the Recreation Center, you will be able to be in contact with me in person as my office will there at that Center. We are excited for our current classes and as mentioned interested in offering new classes and events especially reaching the Active Senior Adult. If you have ideas or is interested in starting a new class or event, please do share with me. I am also interested in ideas for a new Senior program motto for 2022. Most of the classes will be at the Rec Center but we will have a few in which we may schedule with the Activities Center and/or outside.

Thank you!

*Nichole Broemer*

Recreation Center & Senior Program Manager
